The Ultimate Solution for  
Engineering Your Next  
Medical Device

WHY CHOOSE US

# Leadership Excellence

When you face a leadership gap in your engineering team, A65 Consulting is ready and able to step in and provide expert guidance. Our leadership services are designed to expertly guide your engineering team through the complex product development process. We can supplement your existing leadership team or step into an interim role until you find a permanent replacement.

## The Ultimate Solution for Engineering Your Next Medical Device

### WHY CHOOSE US

# Trust and Reputation

At A65 Consulting, we have spent years building a reputation for excellence. When you choose us, you're selecting a premium medical device consulting company that prioritizes your success. We are committed to preserving your budget, delivering exceptional work, and ensuring your complete satisfaction throughout the entire engineering process.

# Discover the A65 Consulting Difference

Partnering with A65 Consulting for your medical device engineering needs is a straightforward process that leads to exceptional outcomes.

**1. Consultation:** Take the first step by contacting us to request a proposal for your project. Our team will be happy to meet with you and give you a no-cost consultation to see if we are the right fit for your needs.

**2. Proposal & Contract:** Once we understand your objectives and have answered any questions you may have, we'll begin analyzing and outlining the necessary steps for your project. We will then provide you with a detailed proposal that outlines the project scope and deliverables.

**3. Kickoff Meeting:** Once we agree on the contract, we'll officially start the project with a kickoff meeting. This meeting will establish the design goals and set the foundation for a successful collaboration.

**4. Design, Testing & Iteration:** Our expert engineers will begin working on your project, ensuring regular client meetings to align with your design requirements. We'll test prototypes, make necessary adjustments, and iterate the design to meet your objectives.

**5. Documentation and Project Completion:** When the project is complete, we'll provide you with all the necessary documentation, including designs, testing results, and drawings. You'll be proud of the work we've accomplished together, and your device will be ready for a successful launch.

Partnering with A65 Consulting guarantees a streamlined process starting with a thorough consultation, followed by a detailed proposal and contract, expert design, testing, iteration, and comprehensive documentation, all leading to a successful device launch.
